Pretty Defendant Certain She Will Go Free

LOS ANGELES — (Associated Press) — The jury in the second trial of beautiful Madalyn Obenchain for the alleged murder of her sweetheart, J. Belton Kennedy, a young broker, August 5, 1921, still was undecided today after having the case since 4 p. m., yesterday. At 10 o'clock last night the jury was reported to stand six to six on a verdict.

While the jury was deliberating, Mrs. Obenchain declared she was confident of acquittal but that the strain was severe. "These months of waiting," she said, "have told on my feelings. While I feel the same confidence in the ultimate result the tenacity and strain of the proceedings affect me."

DISTURBANCE IN COURT

A disturbance was caused in the court room late last night when J. D. Kennedy, father of the slain man, was said to have threatened J. R. Rush, chief counsel. Rush laughed and an investigator from the district attorney's office escorted Kennedy from the court room. When he returned he said he had searched Kennedy.

The seven women and five men comprising the jury reported to Judge Shenk early today they were unable to reach a verdict. At that time, it was reported, the jury stood 5 to 4 for acquittal.

They then shot him.

Call for Troops Is Sent to Tennessee Governor

CHICAGO — (United Press) — Serious rioting broke out here today in the railroad shopmen's strike. Clifford Bailey, a picket, was shot and seriously wounded by United States Marshal Morgan.

Morgan said Bailey was a member of a gang which threatened to beat up strike-breakers guarded by the marshal at the Burnside shops of the Illinois Central.

Railroad officials reported George Wilson, a strike-breaker, had been seriously beaten, thrown into an automobile and kidnapped. No trace had been found of him.

MINERS THREATENING

NASHVILLE, Tenn. — (United Press) — Striking coal miners of Kentucky have crossed the Tennessee border and are threatening to burn commissaries of the mines there and shoot down persons opposing their movement, a message from the sheriff of Claiborne co declared today.

The sheriff asked the aid of additional state forces to suppress the invasion.

AKRON — (United Press) — Developments in the strike of more

Seniority Will Cause Battle In Conference

CHICAGO. — (United Press). — Leading western railroad executives will strenuously oppose any settlement of the shopmen's strike, which would restore seniority rights to the men who walked out.

At the conference next Tuesday in New York to consider President Harding's proposal to end the dispute, the western company managers will stand pat on their demands that the strikers must go to the bottom of the list on their return to work.

That was the stand outlined to the United Press today by a high official of one of the leading transcontinental roads. At the same time, the general opinion in union circles here was that the meeting of the 90 shop craft chairmen to be held in Chicago simultaneously with the New York executives would be willing to accept the president's proposal that seniority standing of the strikers be placed just behind the old workmen who did not strike, but ahead of the strike-breakers.

FAVOR OPEN SHOP

The western roads which have taken the strong stand against the restoration of seniority rights, have been regarded as leaders in the open shop fight for many years. Other lines which have been strongly organized and which have made little effort to employ strike-breakers, are willing to give the men their old standing. The attitude taken by the large eastern roads will probably be the determining factor in Tuesday's executive conference.

In case such lines as the Erie, New York Central and the Pennsylvania are willing to restore seniority rights under the plans proposed by the president then the large western lines opposed to the program, will probably be influenced to accept the compromise.

Direct Parley to End Mine Strike Is Scheduled

Back In Pits In 30 Days, Leaders' Prediction

PHILADELPHIA — (United Press) — Direct parley to bring about peace in the coal war now in its 130th day will be begun on Wednesday when operators from central competitive fields and miners come face to face in conference here, it was reported today.

Refusing to confirm the exact date, John L. Lewis, miners' chief, announced the hour of settlement was at hand. It was predicted the men would be back in the pits in less than 30 days. The men will not resume mining during the negotiations, Lewis declared.

MEETING SCHEDULED

A conference that is expected to have important bearing on the present strike situation is scheduled for today, union chiefs from the central competitive fields are due here to confer with their chief.

Frank Farington, president of the Illinois miners, was expected to arrive today, having been summoned by Lewis.

Lewis announced that miners' leaders will not give in on the matter of mining coal for state and municipal institutions.

Lewis held a long conference with Carl Young, labor commissioner of Michigan, at which meeting the Michigan man pleaded for permission to have sufficient coal mined to supply the hospitals, jails, water, gas and electric light plants of his state.

To grant permission to certain miners to mine coal would tend to disrupt the union organization, Lewis pointed out.

Railroad Strike Will End Within One Week, Belief*

PROPOSAL IS KEPT SECRET

"We Shall Have Coal" Is Promise of White House

By JAMES T. KOLBERT

WASHINGTON — (United Press) — The threat of industrial demoralization is over, administration leaders stated today as President Harding reduced to writing his compromise plan for a settlement of the railroad strike, and the presidential coal committee started its work of rationing coal.

The White House is confident of a settlement of the railroad strike some time next week.

While the coal strike is regarded as "still in the woods," administration officials are confident of averting a disastrous fuel famine even if the strike should continue for some time.

Harding is sure that the public demand for fuel will have ample response.

"We shall have coal," it was confidently and emphatically stated at the White House.

CERTAIN OF SUCCESS

Harding feels almost certain that his plan will be accepted by both factions in the railroad dispute. He has secured a virtual agreement to the general outline of the plan from representatives of executives and strikers at recent White House conferences.

Tuesday should see the final toward peace, administration officials said. On that day the executives of 148 railroads, members of the Association of Railway Executives meet in New York to pass on the Harding compromise plan. On

We Want You To Become A Tire Manufacturer!

you made a tire what kind would it be? Think, now, of yourself as manufacturer, not as a user of tires.

you going to build a tire so good that the fellow who buys it everyone else and when that tire finally wears out, after many hundreds of miles of service, he will come back for other tires just Honestly now, wouldn't you build just that kind of tire?

you would, for that tire would withstand all the price-cutting, rush-on competition in the world. It would take more time, more money, workmen, and finer materials to produce such a tire, but the people who your tire would be better satisfied than the fellow who bought merely

re making a tire, you understand, 'not for dealers' profits, for dealers possibly make longer profits on cheaper tires. You're making a tire to motorist—no one else.

let's quit making tires and be just plain every day motorists, looking for such a tire as you yourself just your own factory.

will you choose? May we suggest? There's a man down in Dayton, O., with ideals exactly like yours actually making YOUR tire. He's building DAYTON tires in a factory just like the one you'd. He knows that the miles he is building into DAYTON tires far outweigh the cost, regardless of the fellow's prices.

Get This!

The only way to be sure of the cost of your tires is to buy mileage. Price alone doesn't cut any figure.

30 Minutes in the DAYTON tire factory will make you a DAYTON tire enthusiast. Ride on a set of DAYTON tires and you'll thank us for the suggestion.

Anti-Saloon League Head Arrived With Maschke, Hynicka

REFORMS ARE PROMISED

Akron Candidate For Governor Speaks In Lima

Playing government by boards and commissions and declaring for a return to "constitutional government," Congressman Charles L. Knight of the Fourteenth Ohio district, Republican candidate for nomination for Governor, addressed an assembly of upwards of 200 people at the Moose Temple, Friday night.

Asserting that there are \$4 boards only a few of which are necessary, Knight said he will junk most all of them if elected. The utilities commission will be first to go, he said. The strenuous candidate from Akron attacked the blue sky department, the movie censorship and other departments, promising drastic measures next week concerning the state highway department that will "rock the state."

"SURPRISE" FOR RUD

Knight also carried up his sleeve a "surprise" for Rud K. Hynicka, a Cincinnati, Republican boss, which he asserts will spring when he visits that city during the next week. Declaring that the army of state employees has overflowed the state house and that there are no numbers in 17 purchased or rented buildings that their feet are sticking out of the windows, Knight said he intends to do some housecleaning, if elected.

Termining Maurice Maschke of Cleveland and Rud Hynicka of Cincinnati as the "Gold Boss Twins," Knight linked up their activities with those of Wayne R. Wheeler, head of the Anti-Saloon league, and stated that "this triad along the way singing 'Onward Christian Soldiers.'"

"We have gone crazy over legislation," Knight said. "Instead of constitutional government of the people, by the people and for the people, we now have a government of boards and commissions, of the boards, by the boards, and for the boards."

Asserting that he had voted to support dry measures, Knight attacked Wayne R. Wheeler, head of the Anti-Saloon league, charging that he is inconsistent and that he does not want the 18th amendment enforced, for the reason that it would separate Wheeler and others from nice fat salaries paid with money supplied in a never-ending stream by the church people of the country.

Knight's proposal to jail the bootleggers is opposed by Wheeler, he says. Wheeler opposes Knight, he says, because the Akron man refused to sell himself body and soul to the Anti-Saloon league.

SEES DONAHAY WINNER
The Akron man stated here that in traveling thru the state he finds sentiment strong for Donahay among the Democrats. He feels he would be able to defeat Donahay, but asserts that if Thompson wins the Republican nomination he will be defeated by Donahay.

In conversation with Republicans and Democrats after his address at Moose Temple, Knight is quoted as having stated that he finds the people are fearfully angry at President Harding for having a hand in bringing about the candidacy of Cermi Thompson for Governor and for conditions generally.

W. P. Anderson, attorney chairman of the Allen-Knight committee, presided and presented the speaker.

CZAR IS DEPOSED

Chicago Unions Move to Unseat "Big Tim" Murphy

CHICAGO—(United Press)—A shake-up in Chicago labor organizations to get "Big Tim" Murphy out of the saddle as czar of unionism here, was under way here today.

Frank Mader, placed at the head of the Chicago Building Trades Council by Murphy, presented his resignation at a stormy session of the council.

Mader, who is now on trial with Murphy, "Con" Shea, and other labor heads on charges of murder in connection with the killing of a policeman, objected to resigning while on trial, for fear his action might influence the verdict.

A compromise was finally reached, whereby Murphy was named "temporary president," pending selection of his successor. The prosecution expects to complete its evidence in the Murphy-Mader-Shea trial by next Tuesday.

MOISTURE ON SUNDAY CARD

Maybe rain tomorrow. Temper of the weatherman indicates it, altho he doesn't come out into the open in a decisive manner with a prediction of that sort. However, reading between the lines, one may easily sense it.

Partly cloudy tonight. Sunday unsettled. Possibly local thunderstorms. Little change in temperature.

Auto owners and managers of ball teams scheduled to play on the morrow "view with alarm" the salvo of the fore-caster and some of them at least fear the worst.

Old Sol struggled against cloud-land for the mastery on Saturday, with a measure of success and heat rays descended as programmed, altho roiling breezes fanned perspiring humanity in a grateful manner.

Saturday forecast of Sunday weather isn't always indicative of what will really occur. Weatherman will take another try at it tonight.

POOR IS TOLD OF LIMA SITUATION

State Fuel Head Congratulates City In Coal Survey

George Poor, fuel administrator for Ohio, was in telephonic communication with officers of the Lima chamber of commerce Saturday, relative to the work of the fuel committee.

He expressed his gratification that a committee had already completed a survey of the situation here and is ready to give him definite information as to the needs of the city.

Complete cooperation will be given to the city by the state department, Poor said, and it is the committee's duty to be asked to go to Columbus next week for a conference on fuel problems.

In the meantime a complete copy of the fuel survey made last week will be sent to Poor, for the consideration of the state committee. By the time the conference is held between Poor and Breckenridge, definite aid can be arranged, it is believed.

A telegram was sent to Poor following the announcement of his appointment in which the aid of the city was pledged. The telephone conversation and a letter followed in which Poor congratulated the city on its action.

For the present at least all orders from the fuel administration will be handled by the fuel committee. Whether an administrator will be appointed will depend upon the gravity of the situation and the policy of the government, it was said.

With the exception of the domestic fuel supply, the conditions here are very satisfactory, considering the situation throughout the country and should the strikes be settled Lima will be ready to spring ahead at full speed, manufacturers have told the committee.

MATHILDE SAILS

Refuses to Discuss Romance With Swiss Horseman

NEW YORK—(Associated Press)—Mathilde McCormick, daughter of Harold P. McCormick of Chicago, sailed on the Majestic today with a maid as her only companion.

She declined to discuss her plans to marry Max Oser, Swiss riding academy master, to whom she announced her engagement last spring or to say where she would visit in Europe, or how long she would remain.

Mathilde's brother, Fowler, and sister Marjorie saw her aboard. Both were reticent, declaring they knew nothing about the plans of their 17-year-old sister.

"She running her own boat, you know," said Fowler. Also on the Majestic but in quarters some distance from Mathilde, was her uncle, Cyrus H. McCormick, chairman of the board of directors of the International Harvester Company. "I am not interested in the affairs of other people," he replied to questions concerning Mathilde. "I do not care what my brother's family does."

Mrs. Davis presented testimony showing Davis drank frequently. Davis, besides showing the pictures found in a trunk, testified his wife took auto rides with a man named Teegarden. The court has the case under advisement.

MARY TO BE BRIDESMAID

Only Few Relatives and Friends Are Invited

LOS ANGELES, Calif.—Romance of Marilyn Miller and Jack Pickford reaches the close-up, fade-out "happily-ever-after" stage tomorrow at beautiful Beverly Hills.

One of the stormiest of modern romances uniting stage and film land will come to a climax when the couple are married at the home of "Mary and Doug" at 2 o'clock Sunday afternoon.

Their love story runs like a real thriller: 1—Malign attacks against the handsome hero. 2—Bribes of diamonds as big as baseballs offered the heroine by the scheming villain; and finally, 3—Like the favorite characters of their favorite plays, Marilyn and Jack say they intend to show the world "nothing matters but love."

"MAY" MAKES PLANS

CAMPAIGN CLOSES

Bitter Fight In Missouri To Be Decided Tuesday

ST. LOUIS—(Associated Press)—United States Senator James A. Reed and Breckenridge Long, third assistant secretary of state during the Wilson administration tonight will close their campaigns for the Democratic senatorial nomination to be decided at the primary election next Tuesday.

Agreeing their contest has been one of the bitterest waged in Missouri. The Democratic contest has drawn so much attention during the last three months that little significance has been attached to the contest among the six Republican candidates.

Senator Reed's supporters are expecting many votes from the ranks of the ex-soldiers because of his fight for the national soldier bonus. Politicians predict Long will run ahead in the rural districts and St. Louis and Kansas City are regarded as strongholds of the senator.

PARLEYS FAILURE

Attempt to Avert Street Car Strike Without Results

CHICAGO—(United Press)—Parleys to settle the threatened Chicago street car strike failed today.

Unless some final unexpected step for settlement of the dispute over a wage cut is made, the strike will be ordered Tuesday, union heads announced.

Three million persons ride daily on the cars, which company officials admit will be completely tied up by a strike.

Attorneys for the Chicago surface lines today made plans in the event of a strike to file a voluntary petition in bankruptcy, placing the operation of the concern in the hands of the federal government.

The company claims to have lost \$65,000 a day since fares were cut to seven cents on June 15.

MAN DIES UNDER ENGINE WHEELS

Warning Came Too Late for W. A. Farrell To Save Self

Farrell was a member of a switching crew at work in the north yards. The noise of the south bound train and glare from the head-light of his own engine, are believed to have contributed to Farrell's failure to see or hear the train that killed him.

His body was badly cut and mangled. Farrell's death was witnessed by George Pond, 542 S. Main-st., a brother switchman, whose warning cry was unheeded.

Other members of the switching crew who testified before a coroner's inquest held Saturday are Archie Green, conductor, 500 Franklin-av.; N. O. Toy, engineer, 949 Ritchie-av. and Fireman Thurston.

Charles Farrell, Ottawa, is a brother. Farrell was married to Madeline Williams, of Ottawa. She died in 1918 and is buried in Ottawa. He has a sister living in Ottawa and another at Port Wauve. Funeral and burial will be held in Ottawa.

"JOHNS" CONTEST IS DEVELOPING

Communities Vie In Sending Largest Number to Picnic

What city in Ohio will have the most men named John present at the annual "Johns" reunion in Fautrot park, August 3?

Bluffton Johns who attended the picnic a year ago 43 strong are coming back to top the championship, they aver. They are betting—no one knows how much—that more men named John from Bluffton will be on the grounds, than from anywhere else. No city, town or village in Ohio is barred.

The John Thompson clan is also defying the entire state to produce a larger family. Commissioner John Thompson and John Thompson, of Bluffton issued the challenge Saturday.

At the reunion a year ago, seven John Thompsons were present. None of them were related. They easily outnumbered the John Smiths, John Browns and John Joneses.

More Johns than ever are to be at the meeting, according to John Kepphart, who has sent an invitation to everyone named John he can find in Allen and neighboring counties.

A lot of the county will be made Sunday by Kepphart and John T. Cotner, county clerk and posters advertising the meeting hung up at every cross roads.

"Unless they can't read," said Kepphart, "they can't miss knowing about it. Even then we'll try and tell them some way."

2 FOUND GUILTY

Alleged Confidence Workers Ordered Out of City

William Ruffin, Macon, Ga., colored, arrested with Powe, pleaded not guilty to a charge of vagrancy. Trial, however, resulted in his being found guilty by acting Judge Benjamin Motter who fined him \$20 and gave him an hour and a half to get out of town.

The two men are alleged by police to have attempted to work a confidence game on Warren Ruffin, colored, Lima House porter. Ruffin's suspicions forestalled consummation of the confidence trick, and resulted in their arrest.

The two men denied knowing each other, a telegram sent to the alleged wife of one, according to police, resulted in the appearance in police court Saturday morning of alleged wives of both. They all departed together.

HOLLYWOOD HORRORS ARE BUNK, SAYS MOVIE CZAR

LOS ANGELES, Calif.—Will H. Hays, president of the Motion Picture Producers and Distributors' Association of America has laid out a close study of motion pictures studios here, to find the horrors of Hollywood. He told the Hollywood chamber of commerce last night.

"The one bad influence in Hollywood is talk," said Hays. "For the life of me, I cannot see the horrors of Hollywood." He said the people must have entertainment, that if they are deprived of it they will "go red" and the right kind of motion pictures are needed.

"We must remove the reason for lies about the industry," he continued. "Ours is a duty to youth. We are not so much interested in the millions of dollars invested in the industry as we are in the millions of children whose morals and education are invested in it."

Children Cry for Fletcher's Castoria

Why Castoria?
YEARS ago Castor Oil, Paregoric, Drops and Soothing Syrup were the remedies in common use for Infants and Children; Castor Oil so nauseating as to be almost impossible and the others all containing Opium in one form or another, but so disguised as to make them pleasant to the taste, yet really to stupefy the child and give the appearance of relief.

It required years of research to find a purely vegetable combination that would take the place of these disagreeable, unpleasant and violent remedies that from habit had become almost universal. This was the mission of, and the reason for, the introduction of Fletcher's Castoria, and for over 30 years it has proven its worth, received the praise of Physicians everywhere and become a household word among mothers.

A remedy ESPECIALLY prepared for Infants and Children and a mother would think of giving to her baby a remedy that she would use for herself, without consulting a physician. Genuine Castoria always bears the signature of *Dr. J. C. Fletcher*.

ENGAGEMENT IS ANNOUNCED AT CLUB MEETING

MRS. Stanley Skiles, 736 E. Kibby-st., entertained a company of young women, Friday evening, when announcement was made of the engagement and coming marriage of Miss Clara McPherson, 411 S. Pine-st, and Clyde Davis, Detroit. The wedding will be an event of September 5.

Mrs. Skiles extended delightful hospitality when she entertained the Fleur-de-lis club and at the same time made known the happy event. Miniature brides and bridegrooms at each cover at the handsomely-appointed dinner table told the secret. Small booklets, held in the hands of these interesting little figures, containing verses, conveyed the information to the guests.

A profusion of garden flowers, in various hues, decorated the table. Miss McPherson has been assistant to the long distance chief operator at the Lima Telegraph and Telephone Co. office, and has a wide circle of admiring friends.

Mr. Davis is connected with the offices of the Bell Telephone Co. in Detroit. Enjoying the hospitality of Mrs. Skiles were: Miss McPherson, Mr. Harley Ward, Mrs. John Stelzer, Miss Hope Perry, Miss Dorothy Ferry, Miss Georgia Rose, Miss Rhoda Sherkey and Miss Mabel McPherson.

DIVORCE GRANTED TWO WIVES

Maiden Names Restored Also by Court Order

Two Lima women were restored to the use of their maiden names by Judge Fred C. Becker, sitting in common pleas court Saturday. Both women were granted decrees from their husbands on testimony showing extreme cruelty and neglect of duty.

Mrs. Ruth Clabaugh, 779 Broad-way, bookkeeper, was restored to her former name, Ruth Gilliland and divorced from George Clabaugh. Mrs. Cecil Lint, of Cridersville, after she had told the court her husband had not contributed properly to her maintenance, and had mistreated her. She will resume her former name, Cecil Mowery.

A motion filed by Mrs. Pearl Clapper, former wife of Walter Clapper, asking a modification of the court order giving him care and custody of three children, was dismissed by the court.

PROBE IS ASKED
Senators Financially Interested In Tariff, Is Charge

WASHINGTON—(Associated Press)—Investigation of charges that certain senators are interested financially in the rates of duties proposed in particular schedules of the pending tariff bill was proposed in resolution introduced today by Senator Caraway, Democrat, Arkansas.

By a vote of 26 to 24 the senate approved today the committee amendment imposing duties on woollen clothing for men's suits. Some 16 republicans voted against the amendment and three Democrats supported it.

11 FURNACES CLOSE
YOUNGSTOWN.—The overhead department of the Brierley Steel Company here, including 11 furnaces, was shut down today night, it was announced at the company's office today. Six of the furnaces, however, will be started Sunday night. The six to be shut down is due to the coal shortage.

Seven railway shop foremen employed by the L. E. & W. and B. & O. railroads here, were officially released Saturday to turn in their union membership cards, by the allied crafts on strike here.

This action followed the recently announced decision of the strikers to have nothing to do with foremen who refused to walk out with them four weeks ago when the strike was called.

A number of the cards were returned to union headquarters Saturday, union committee men declared. Strikers still declare they will insist upon the foremen being discharged when they are called back to work.

Only activity now under way at strike headquarters is the preparation being made for the public meeting to be held here Monday night, at which H. W. Brown, head of this district of the strike area, will speak.

YOUR DAILY GRIND

THE older you get, the more you realize the extreme slowness with which we humans accomplish anything of importance. Life is a process of grinding the ax for two hours to do 10 minutes of actual wood chopping.

Mother is the champion slave of the limits of time. She works nearly a whole day, preparing a Sunday dinner that disappears down the throat in a few minutes. It takes an hour to scrub Bobbie and get him ready for exhibition. He seeks the nearest mud-puddle and undoes the job quicker than it takes to tell it.

"The daily grind" is tedious preparation for climaxes that are brief. In civilization we have to toil all day, in order to have a few hours of leisure. Two weeks' vacation, 50 weeks of work.

Voltaire knew what he was talking about when he wrote: "Time is of all things the longest and the shortest, the quickest and the slowest."

THE great period of time necessary to accomplish anything was illustrated in England long ago, when coffee was introduced to that country as a beverage.

The first coffee sold in England was put on the market in 1652 by Pasqu. Rosie, merchant, in St. Michael's Alley, Cornhill.

For 20 years a campaign of great violence was conducted against coffee. English public affairs lunatics were so convinced that coffee ruined the health and corrupted manners, morals and politics, that at times the authorities had to drift with the current and suppress its sale.

In "The Women's Petition Against Coffee," circulated in 1674, the belief was set forth that coffee drinkers would breed a race of "apes and pygmies."

English coffee merchants had to plug for 50 years to create their market. How many modern American business men would have that much patience?

GROWING the crop takes a long time. The harvest is short. That is the way with nearly every human life.

Fate is a jester. Usually there isn't any harvest to speak of. Decidedly this is so in the case of the man who, desiring to enjoy great wealth, wears himself out in accumulating it and wakes up at the grave's edge to find that he has the gold, but is too old to enjoy it.

We are forever planning what we are going to do tomorrow or next Christmas or a year from now. Many of us live too much in a future that never comes. The future is mostly an illusion.

PROSPERITY

LATEST report from railroads is that in the week ended July 1 they loaded 876,896 cars of freight. That is about 101,000 cars more than in the corresponding week last year and 133,000 more than in the corresponding week of 1919, during the big boom.

Returning prosperity must be a mighty healthy individual, after his long rest, to make a showing this good, with coal shipments, 65,000 carloads a week below normal. The old gentleman must have taken good treatment while convalescing.

But the present strikes may send him back for another rest.

THE FOOL-KILLER

HAVE you ever come close to getting killed at a railroad crossing? The number of deaths from this cause has been cut in two since 1907. But the toll still is heavy and 76 out of 100 crossing deaths happen to auto drivers.

Contrary to general belief, reckless driving is not the cause of most crossing accidents. F. M. Metcalfe, safety expert of the North-

ern Pacific, has been checking up on his road. He finds that really reckless drivers are few. But "thousands of motorists every day drive over the railroad tracks without taking the trouble to look either to the right or left."

THIS is an odd slant on auto accidents—that more people risk their lives by carelessness when driving slowly than when speeding.

The fact that we may be driving slowly is apt to lull most of us into a false sense of security.

The less apprehensive we are of danger, the more careless we become.

Eternal vigilance is the price of safety.

AUTO driving never can be made fool-proof like the machine enclosed in safety guards.

Eliminating railroad crossings, while desirable in cities and at dangerous curves, can never be applied generally.

There are 251,939 highway crossings on the principal railroads alone. They are being eliminated at a rate of 400 a year. At that rate, says Metcalfe, it would take 629 years to remove all the crossings, and at a cost of \$12,500,000,000.

Personal and never lagging caution is the real curb for auto accidents—and all others.

MONEY-MAD

EDISON thinks that Americans are drifting away from money-madness.

The rest of the world claims that Americans worship the Almighty Dollar. Most of us have hypnotized ourselves into accepting this belief.

An investigator coming by airplane from Mars would look us over and say: "The great characteristic of Americans is not a craze for money, but the ability to make it. People of other countries want wealth just as badly. The difference is, they have neither the resources nor individual abilities to make it."

We are a great people to criticize ourselves and our institutions.

THE WIFE'S WORK

SOMEONE—probably a statistics shark who had had an argument with his wife—figures up and finds this: The average housewife in 30 years cooks meals for 150,000 people and devotes 100,000 hours to sweeping, scrubbing, dusting, mending, etc.

For this, she gets paid less actual money than the lowest-paid unskilled workman, the keeping house is more than a skilled trade—it is one of the fine arts.

Heaven help us if the mothers ever strike for an eight-hour day or time and a half for overtime.

and dusting well my whites, below stairs to cantaloupe and bacon. All the night thru was in unruly dreams. Whence came, Flaxy Cunningham, dressed in silks and huge ribbons, leading a cake walk, came in hand. In the old Auditorium, until bending and twisting he did stick his cane in the cake therein. And George Cook became so hysterical, was toted away for his laughter. Whence appeared above the heads of the crowd. Whom, no other but Medad Talbot challenging the world to a boxing bout the next night. It was an illusion, or delusion historical, but brave and real.

To my office to prepare business against the afternoon. God mend all, for sure am I we are in ill condition. With strikes and struggles, and financial bankruptcy abroad. Albeit, price reductions threatened in the motor industry. Steels advancing against end of troubles, and city bespattering the streets with water mains for the houses newly to come. This day took my nickers to have the volume reduced. Which must soon aid my game.

Abroad for a stroll, meeting with many times Mayor Wm. McComb. And in discourse, he tells of the great in-

crease in travel on Pierce street. Since asphalt was adopted. Albeit, the High school needs a manicurist for the weeds and a revised edition of sidewalk grading. Before Pat O'Ferrall leaves, forsooth, he should have Lew Larsen and S. W. Baker take mortar and trowel and mend the fallen bricks, east side, near coal chute.

To lunch at home, where a little angry became, anent the thinness of the milk. Which is folly. So in discourse with my wife, learned of the doings of the day. And her great plans to speed up, and put the washing and ironing thru in a single shift. The Goldust twins to aid her.

Dined on a good steak, dans le sirloin, pate rubarbe, with a pouding au riz, and raisins added. Thence strolled over to St. Rita's for the lawn fete. And a great crowd there was, netting the noble nurses much money.

In the evening, read long in the new Hearst's International and some choice morsels therein. So to bed, feeling mighty well, and pleased therewith. But chose to read yet anon, and picked up Mr. Hooke's Microscopical Observations, the most ingenious tale I ever did read.

Chicago, Illinois.—"You surely gave women a good medicine when you put Lydia E. Pinkham's Vegetable Compound on the market. After I had my baby I was all run down and so nervous I kept me from going to my doctor. My doctor did everything he could to build me up, then he ordered me to take Lydia E. Pinkham's Vegetable Compound. With this medicine I have had three children and they are all healthy. I have recommended your medicine to several friends and they speak highly of it. You are certainly doing good work in this world."—Mrs. ADRIAN TOMSHECK, 10657 Wabash Ave., Chicago, Illinois.

There is nothing very strange about the doctor directing Mrs. Tomsheck to take Lydia E. Pinkham's Vegetable Compound. There are many physicians who do recommend it and highly appreciate its value.

Women who are nervous, run down, and suffering from women's ailments should give this well-known root and herb medicine a trial. Mrs. Tomsheck's experience should guide you towards health.

"BALLAD KING" IS NOT MUSICIAN

MILWAUKEE, Wis., (Special)—"Ballad King," with hundreds of songs to his credit, and yet he cannot read or write a line of music. That is Charles K. Harris, composer of

"After the Ball," "Break the News to Mother," "Always in the Way," "I'm Wearing My Heart Away for You," "Hello, Central, Give Me Heaven," and many other ballads which have swept the nation. The he knows nothing of the technical side of music, many tunes float thru Harris' mind.

Harris hums them aloud to a musician, who transfers them to paper.

When Harris first started writing songs, he had a hard time disposing of them. Then he conceived "After the Ball" and his name and fame were made.

He believes the pathetic, true-to-life songs are the ones that will endure. Jazz, which he describes as "nothing more than the manifestations of wild, turbulent spirits that were pent up during the late World War," cannot last long, he says.

CAR PURCHASE IS HALTED BY MACK

Head of Fire Force Favors 7-Passenger Machine

SEES ECONOMY IN PLAN

Would Reduce Equipment Necessary in Fire Call

Purchase of a seven-passenger touring car for use by the Lima fire department, will enable the reform of the present system of answering fire calls, with great savings to the city, Chief John Mack declared Saturday.

The automobile has practically been ordered by City Purchasing Agent Osgood. It is understood that the question of whether a seven-passenger or a two-passenger machine should be purchased, is holding up the signing of contracts.

Mack declares the purchase of a two-passenger car would mean a material saving to the city at present.

FAVORS BIG AUTO

He points out that a seven-passenger machine would permit the organization of a flying squadron of fire fighters, equipped with chemicals and life saving apparatus, working directly under the chief.

With such a squadron in operation, only two machines instead of the four used now, would move on every alarm sent in.

At present, in addition to the department in the district from which the fire is reported and the chief's car, a hose cart from Central Station is sent to answer the call. This is done principally for the purpose of carrying enough men to the scene of the fire to insure proper handling of the blaze. Whenever a call is answered from Central station, another department will be there to put in case of two alarms at the same time from different points.

If the seven-passenger car is purchased, the chief points out, it will not be necessary for the hose cart to Central to answer every fire call, for the flying squadron, which will be composed of four men including the chief and his chauffeur, will make the run. Thus, only two wagons will be moved in every original alarm, instead of three and the chief's car, as at present.

WILL SAVE MONEY

Should the seven-passenger car be purchased, it will be painted red with the exception of the mud guards.

The chief believes that this machine will eventually be delivered to him for use.

Mack is keen for cutting down expenses. The original outlay for the seven passenger car is some hundred dollars in excess of the two-passenger machine, the larger one will soon pay for itself in savings by cutting down on the total number of runs made by fire department vehicles, he says.

FORGETS WORRY WHEN CELEBRATES ANNIVERSARY

ANERLEY, England.—One hundred and five candles were on the birthday cake of Mrs. Garrett, the blue-eyed centenarian beauty of Oak-grove when she celebrated her anniversary of her birth. Among the guests at her annual party this year were five grandchildren, seven great-grandchildren and her one great-great-grandchild. Mrs. Garrett, who is a handsome old woman with a wonderful complexion, white silky hair and the habits of dress, has a simple recipe for longevity. Here is her formula: Eat plenty, but with regularity. See the humorous side of things. Take an interest in life. Don't worry.
